

VEHICLE TRACKING

VEHICLE TRACKING

The intelligent piece of technology that creates big peace of mind

Far more than mere vehicle recovery, **Ctrack Vehicle Tracking** offers a host of tracking and monitoring capabilities designed to ensure peace of mind for you, and security for your vehicle and family or business.

Ctrack uses the very latest GPS and GSM/GPRS location technology, to ensure that your vehicle is **always visible** and always operational. Unlike many other vehicle tracking systems, *Ctrack* continually monitors that your unit is fully functional, removing the inconvenience of having to perform self tests yourself.

With four comprehensive products for individuals and small businesses, *Ctrack* offers different levels of features dependent on your needs, from essential vehicle recovery and monitoring to more extensive solutions with additional security and vehicle management tools.

insure[®]

The insurance-approved – usually with reduced insurance premiums – essential tracking and monitoring system that includes alerts in the event of battery or unit tampering, border approach notification and international recovery.

insure protector[®]

All of the features of Ctrack Insure with the addition of collision alert and ER24 notification, as well as security assistance for you and your family in the event of a breakdown.

secure[®]

For small business owners who need vehicle management tools or individuals who prefer more control over their vehicles, Ctrack Secure provides you with internet access to view your vehicle movements. In addition Ctrack Secure includes features such as an automatically updated SARS-approved logbook, area alerts and an optional remote panic button.

secure protector[®]

As well as all of the features provided by Ctrack Secure, Ctrack Secure Protector offers collision alert, ER24 notification and security assistance in the event of a breakdown for added security for you and your family, making this a total vehicle tracking, monitoring and management solution.

Should you need further information or advice on the ideal monitoring and tracking solution for you, please contact our Call Centre on **0860 287 225** or visit **www.ctrack.co.za** and discover why we are known as the people who put intelligent into tracking.

PRODUCT BENEFITS

SMS - Vehicle Location

Send an SMS from your cell phone to get an accurate GPS based location on your or your family's vehicles.

BorderGuard™

The *Crack* Support Centre is alerted when your vehicle approaches any of South Africa's borders and responds accordingly.

International Tracking

Crack can track and recover your vehicle if it is stolen within or outside South African borders.

Get Directions

Lost? Call the *Crack* Support Centre 24/7/365 to get accurate GPS based directions.

Illegal Movement Notification

If your car moves when switched off, *Crack* will notify you via SMS.

Battery/Unit Tamper

If the power to your unit is tampered with, we will notify you via SMS, thus alerting you to a potential incident of theft.

ProActive Daily Health Checks

If your unit stops working, we will notify you via SMS.

Nationwide Recovery

In the event of theft, *Crack* will cover the cost of the recovery team (terms and conditions apply).

Insurance Approval SA

SA Insurance Association (SAIA) approved, qualifying you for preferential discounted premiums.

DriverAlert™

Want to know when your family starts driving? Send an SMS to ActivateWatchMode™.

Preferred Area

Create your own preferred movement area. If this area is breached, your *Crack* will proactively alert the Support Centre and yourself.

SARS Accepted Logbook

Crack automatically creates an easily maintained, SARS accepted, electronic logbook separating business and private trips, enabling you to maximise your tax rebates and business mileage claims.

Remote Panic Button (optional extra)

24/7/365 access to ER24 and security response when your panic remote is pressed in the vicinity of the vehicle.

ActivateWatchMode™

If parking in an unsafe area, send an SMS to your unit. If your car moves, *Crack* will alert you via SMS.

Internet - Vehicle Location

Using an Internet connection and the *Crack* web application, view the current location and download the historical trip reports of your vehicle.

Warranty

All *Crack* units carry a 36 month warranty.

VALUE ADDED SERVICES

BodyGuard™

If your safety is compromised as a result of a breakdown, *Crack* will respond to your call and dispatch an armed guard.

CrashGuard™

In the event of a collision, the *Crack* Support Centre and your authorised contacts will be notified, ER24 will be dispatched if necessary.

FREQUENTLY ASKED QUESTIONS

How do I get a Ctrack?

Simply call the *Ctrack* Call Centre on 0860 287 225 (option 2 for Sales) or visit one of our nationwide Fitment Centres. You can visit www.ctrack.co.za to find the Fitment Centre nearest to you.

How do I get a Ctrack fitted?

With over 55 *Ctrack* Fitment Centres countrywide, having your *Ctrack* unit fitted is easy. You can either visit us or we will send a technician out to you at your convenience. Fitments are secure and will take around two and a half hours.

Do I have to do self tests with Ctrack?

No; unlike other trackers, you are not required to carry out self tests. The functional health of your unit is monitored daily and our Support Centre notified should it not be operating, in which case you will be alerted immediately via SMS.

What happens in the case of an emergency?

You simply call 0860 287 225 (Option 1 for Emergency) and one of our trained Emergency Support Agents will assess your emergency and dispatch the relevant emergency services.

Do I pay for vehicle recovery?

Your contract allows for one vehicle recovery per month free of charge. Terms and conditions apply.

What is Ctrack's recovery rate?

Thanks to our superior GPS and GSM/GPRS technology, with backup RF, and our association with South Africa's leading independent recovery specialist and the SAPS, we have a stolen vehicle recovery rate of over 90%.

What happens when I sell my vehicle?

You can either transfer the ownership of your *Ctrack* contract, or you can transfer the tracking unit to your new vehicle - it's up to you.
